

**Apply for a free licence to use
the SINGER (Scores of Independence for Neurologic and Geriatric
Rehabilitation) with the SINGER development group**

Licence applicant with address:

(e.g hospital, rehabilitation clinic, outpatient rehabilitation center, authority, research group, individual)

Planned field of use for SINGER and relevant indication groups:

(e.g outpatient treatment, outpatient rehabilitation, hospital treatment, inpatient rehabilitation, research, etc. Indication groups: neurology, geriatrics, cardiology, etc.)

How many patients will approximately be assessed with the SINGER per year and why would you prefer SINGER over the Barthel Index?

Please name the point of contact for SINGER at the licensee :

(name, first name, address with phone number and email address)

The SINGER development group (Licencor) has decided not to charge for the use of SINGER in order to advance the rehabilitation process.

By requesting a free licence, the licensee accepts the following terms:

Without the prior consent of the licencor the licensee is not allowed to offer or distribute any paid offers, services or products on the basis of or with reference to the SINGER.

All publications are made with reference to SINGER:

Gerdes N., Funke U.-N., Schüwer U., et al. (2012): "Scores of Independence for Neurologic and Geriatric Rehabilitation (SINGER)" – Development and Validation of a New Assessment Instrument", Rehabilitation 2012; 51(05): 289-299, Georg Thieme: Stuttgart, New York)

The licensee is not allowed to change or modify the SINGER without the prior written consent of the licensor.
